

## Mechanical Aftercare Engineer

### The opportunity

We're looking for a Gas Safe Registered Aftercare Engineer with a building services background to join our M&E team. Does that sound like you? If so, keep reading.

The Mechanical Aftercare Engineer's role will be to carry out plumbing maintenance across new build sites, including gas works, to a safe, clean and well-presented manner. Be able to work to a strict programme where punctuality and quality of workmanship is key. Work with other trades and be able to handle difficult situations, including customer issues and complaints.

### More about us

HBS Group Southern is an established and dynamic mechanical and electrical building services specialist, based on the South Coast.

For over 70 years we have maintained our focus on high-quality workmanship and first-class customer service. Today, many of the UK's top housing developers, blue-chip and public sector organisations choose HBS as their trusted delivery partner.

We provide a truly integrated and efficiently managed end-to-end service for the mechanical, electrical, and renewable energy requirements across the construction industry.

### The general plumbing and gas maintenance duties include:

- Material issues i.e. leaks, burst fitting
- Repair gas pipes and fittings
- Boiler & cylinder changes
- Boiler and cylinder servicing
- Diagnose faults on heating issues inc boilers and cylinder defects
- Shower breakdown and enclosures
- Replace taps, showers, basins, kitchen sinks
- Replace toilets, towel rails and radiators
- Guttering repairs

### What qualifications and skills are we looking for?

The ideal candidate will be a Maintenance Engineer with experience working within the New Build sector or have a Mechanical Maintenance background. You would need to have the below to be considered for this role however, training can be provided for the ideal candidate.

- Gas Safe Registered (Boilers and cookers as a minimum)
- G3 Qualified (Unvented Systems)
- GNVQ level 2 or 3 or its equivalent qualification
- Minimum of 5 years' experience in plumbing maintenance and customer relations
- Part P Electrical Qualified (if possible but not critical)
- Competence in carrying all the duties listed above
- Solar Accredited (if possible but not critical)
- Air Source Heat Pumps (if possible but not critical)
- Competent in working with Ideal Standard, Rocca, Aqualisa and Bristan products

- Be able to handle stressful situations
- Work as a team and individually
- Be comfortable working from heights and from ladders safely

## **We offer**

- A full-time position
- Competitive salary of £34,000 – 38,000 DOE
- Overtime plus 'Out of Hours' call out payments
- Company van, fuel card and mobile phone provided
- 20 days annual leave + public holidays
- Company pension scheme

If you think you could be the perfect fit for this role and would like to apply, please email a covering letter and CV to [careers@hbsgroupsouthern.co.uk](mailto:careers@hbsgroupsouthern.co.uk) Applicants must have a Right to Work in the UK.
