

Role Description: Undergraduate Project Manager (HBSNEUGPM)

Company Background

HBS Group Southern is an established provider of mechanical, electrical and renewable energy services, delivering quality and professional expertise across all business sectors throughout the UK.

Our teams of industry experts supply a range of consultancy, design, installation and maintenance solutions to the UK's leading housebuilders, contractors, blue-chip companies and local authorities, managing projects from concept through to completion.

As a family-owned company that has been operating since 1950, we have built an assured reputation for delivering quality, value, reliability and operational excellence.

Opportunity

We are offering year out placement positions for Undergraduate Project Managers to join the Group's New Energies division. The 12-month undergraduate programme will provide an important step in learning about the role of a Project Manager.

HBS New Energies is a leading renewable energy provider specialising in the design, installation and maintenance of solar PV, battery storage, EV charging and energy efficiency systems within the commercial, construction, new build housing and public sectors.

Within the Undergraduate Project Manager role, you'll have the chance to work on a diverse range of cutting-edge projects, surrounded by our team of industry-leading experts. You will be expected to engage in on-the-job training across key elements of a project life cycle, including design, engineering, planning, health & safety, construction, quality control and commercial. This will provide the perfect opportunity to fulfil your placement goals and provide a strong foundation for your career.

The successful applicants will receive mentorship, first-class training and guidance. This will help develop technical and leadership skills as you advance within this exciting Project Manager position.

The role

You will play a supporting role in the delivery of our development pipeline, gaining a wide range of experiences assisting projects at every stage. You will ensure that designated projects are delivered on time, within budget and to the highest quality. You will be required to assist and deliver the following tasks:

- Day-to-day assistance to Senior Project Managers in the delivery of projects
- Problem solving key design or installation challenges on live projects in conjunction with design team and subcontractors
- Promoting and upholding HBS' reputation for providing the highest standards of site safety, health and welfare and protection of the environment
- Developing good working relationships with the client, site team and supply chain by promoting best practice throughout the whole construction process
- Developing your knowledge and work practices within the guidelines of safety and legislative regulations
- Work with our supply chain and surveyors to protect HBS' commercial position and the potential for repeat business

- Developing and understanding in technical practices and sequences on projects.
- Contributing knowledge and skills to the delivery of the project on time, on budget and to the required quality
- Ensuring our sub-contractors are always completing works to the highest standards

Skills & Experience

The ideal candidate will be able to demonstrate a commitment to Project Management and possess the following skills and qualifications:

- Working towards a 2:1 degree in Project Management, Construction Management, Electronic Engineering or related construction degree

As your Undergraduate Programme progresses and you gain more knowledge and experience you will be given increased responsibility in supporting the delivery of projects, supervision of the construction workforce and solving technical problems.

At HBS we have a saying: *"A job does not define an individual, the individual defines the job"*

The more you can do, the more we at HBS can give in tailoring your year out placement to the experience you want it to be.

Email your CV and covering letter to careers@hbsgroupsouthern.co.uk

HBS Group Southern is an equal opportunities employer. Please note that to be appointed to this role candidates will need to have the right to work in the UK.
